Debut single 'Arashi' digitally released 1 September 2010 and a CD version is released 16 September.

**Record release gig at The Purple Turtle, Camden, Thursday 16 September.**

After already garnishing a huge amount of support from magazines such as Classic Rock, Power Play and Metal Hammer the highly acclaimed 'United Nations Of Female fronted progressive rock' Achilla proudly announce the release of their debut single, 'Arashi' on the 1st September.

This band comprises members from five different countries and features Guinness World Record holder Martamaria and her amazing vocal range.

While most rock bands plough familiar furrows Achilla lay the roots for a truly mesmerizing and exciting experience with a rare passion, dexterity and astonishing musical power.

"If you thought the goth metal division was getting cluttered with bands who are just copying each other, then Achilla might just freshen up your attitude. They're heavy, melodic and have the touch of individuality that must see them soar" – Metal Hammer
